

St Paul's Primary School, Newcastle. Glorifying Almighty God, and serving our community.

Investigating places		Investigating patterns		To Communicate Geographically	
Class: 1/2			Title: Maps		
Topic summary: Globes, atlases and maps are used to describe where in the world places are. There are many terms map-makers use to describe where places are and make it easier to locate them.					
Geography Objectives			Unit of work end points		
<ul style="list-style-type: none">Identify the key features of a location in order to say whether it is a city, town, village, coastal or rural area.Use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied.Use simple fieldwork and observational skills to study the geography of the school and the key human and physical features of its surrounding environment.Use aerial images and plan perspectives to recognise landmarks and basic physical features.Name and locate the world’s continents and oceansIdentify seasonal and daily weather patterns in the United Kingdom and the location of hot and cold areas of the world in relation to the Equator and the North and South Poles.Identify land use around the schoolUse basic geographical vocabulary to refer to:key human features, including: city, town, village, factory, farm, house, office and shop.Use compass directions (north, south, east and west) and locational language (e.g. near and far) to describe the location of features and routes on a map.Devise a simple map; and use and construct basic symbols in a key. Use simple grid references (A1, B1)			<ul style="list-style-type: none">Label and use a compass showing: north, east, south and westTo know that Earth is spherical, and we use a globe to show the areaTo label an image of Earth showing: north, south, west and east.To know and label the Earth’s different hemispheres (North Pole, South Pole, equator, northern hemisphere and southern hemisphere)To know maps are pictures on flat pieces of paper, or on a screen, showing features of the Earth.To locate the UK and other countries on a mapTo know that atlases are books full of maps and information about the EarthTo use an atlas and explain the method to find the:<ul style="list-style-type: none">United Kingdomfive oceansseven continentslocation of the schoolTo know that Satellites are objects sent into space to take photographs of the Earth (satellite images)Compare and contrast the differences between maps, atlases, globes and satellite images		
Key vocabulary			Deeper learning:		
Maps	Pictures on flat pieces of paper, or on screen showing features of the Earth				
Atlas	Books full of maps and information about the Earth				
Globe	Used to show the surface area of the Earth				
Satellite image	Objects sent into space to take photographs of the Earth				
Compass	A tool for finding direction				
			<ul style="list-style-type: none">True or false? Maps are more detailed than globes.Do you agree? Satellite images are not very useful for giving day-to-day techniques directions from one place to another.
